# INDOOR CONSERVATION REBATE APPLICATION

## Customer agreement and requirements

- This indoor water conservation rebate program provides financial assistance to Soquel Creek Water District (SqCWD) customers wishing to conserve water by doing one or several of the following: replacing old toilets, pre-1992 with new High-efficiency toilets or by replacing old washing machines with new Energy Star rated washing machines.
- No rebate will exceed the cost of the item purchased.**
- Rebate credits will be paid to the Soquel Creek Water District customer of record only. Customer's account must be in good standing to receive a credit. Balance of credit will be mailed to the customer upon closing of the account. Allow four weeks from the date of inspection for processing of your credit. The credit will appear on a subsequent water bill.
- Installation of the device, appliance or fixture is the sole responsibility of the applicant, as is determination of the adequacy and compatibility of the existing plumbing system.
- Funding for rebate credit is limited** and will be available until funds are depleted. Applications will be processed on a first-come, first-served basis, provided the application meets all qualifying criteria. **There is no implied or expressed guarantee that funding will be available at the time the application is processed.**
- An original, dated sales receipt must be provided.** Rebate credits do not apply to sales tax or installation charges. Labor costs are not rebated.
- Soquel Creek Water District does not endorse specific brands, products or dealers; nor does it guarantee materials or workmanship; acceptance of such is customer's responsibility.
- Soquel Creek Water District assumes no responsibility or liability for any damage that may occur to an applicant's property as a result of participation in this program. Due to circumstances beyond its control, the District cannot guarantee that installation of rebated fixtures will result in lower utility costs.
- The applicant is solely responsible for the proper disposal of all materials associated with the installation of the conservation fixtures and the Soquel Creek Water District assumes no responsibility or liability. Please recycle materials when possible.
- A representative of SqCWD must be permitted to inspect the property to verify proper installation.
